

Sustainable Neighborhood Network

Our Vision

A world of community learning and shared abundance

Descriptive Highlights

- Neighborhood technologies shared
- Transportation, food, water and fuel security

Key Benefits

- Polling resources toward off the grid local self reliance (energy and waste)
- Neighborhoods and environmental stewards
- Cleaner water and air, overall cleaner environment
- Community building

First Steps

- Implementing sustainable neighborhoods
- Training
- Awareness
- Research so we don't need to "reinvent the wheel"
- Field trips
- Neighborhood organizing

Available Resources

- Willing neighborhoods
- Existing infrastructure – emergency response
- Off the grid technology
- Practical wisdom, best available practices

Other Things We Need

- More willing neighborhoods
- Tax incentives/policy change for solid and liquid waste, neighborhood energy

Who's Taking the Next Step?

- **Covener:**
 - Liz Rimeland
Phone: 831-426-7813
