

Water Budget

Our Vision

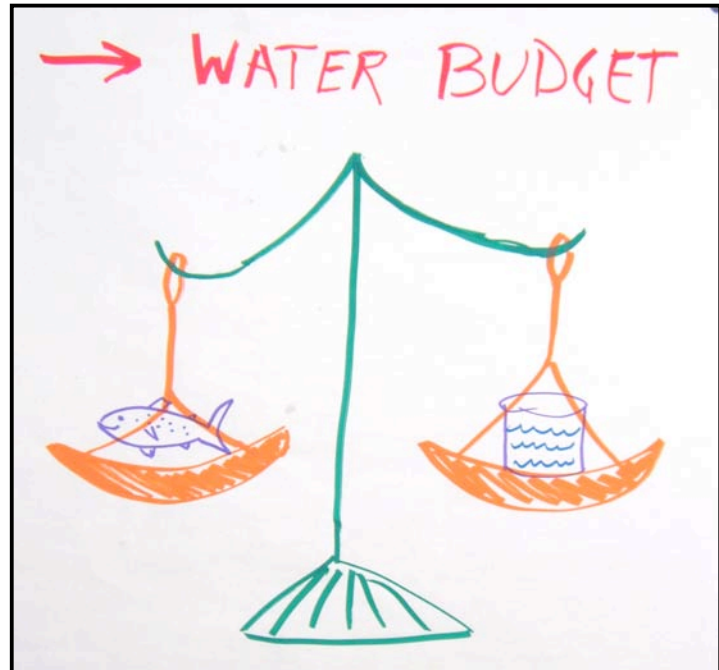

Balanced water use for ecosystems and people

Descriptive Highlights

- Develop and understand a water budget
- Inform the public and the agencies
- Develop a balanced plan for long term and droughts

Key Benefits

- Sustainable water supply for humans
- Protect and restore endangered species
- Economic well being, rational integrated water use
- Healthy communities, healthy ecosystems

First Steps

- Organize data
- Water forum

Available Resources

- County water resources program and water agencies
State water bonds
- Endangered Species Act and regulatory agencies

Other Things We Need

- Community awareness
- Community support and commitment
- Ongoing source of funding
